CANDIDATE FOR SHERIFF SAYS MORE PROTECTION COULD BE PROVIDED

Seventy-five per cent of Oxford County could be patrolled at no additional expense, with no additional taxpayer expense by cooperation with State and local police, according to Francis Wyman of Norway, a Republican candidate for sheriff in the June primaries.

Mr. Wyman said early this week that he saw no need for three more deputies and two cruisers at an estimated expense of from \$40,000 to \$50,000.

The candidate further stated that he would be willing to debate with his Republican opponent the plan of patrolling and operations for the Sheriff's Department at any rally that is open to the general public.

"I look at the sheriff's job as being a 24-hour a day job, which requires a young man to be out working with deputies and constables at all times," the candidate concluded.

Letters to the Editor

A Plea to Parents
I am writing this letter after at-
tending a meeting sponsored by our
Drug Council here in Bethel. A doc-
tor who obviously knew what he was
talking about presented a group of
about 60 adults and 10 children with
a very informative insight on the
drug problem.

Parents—where were you? A few
people there admitted that Bethel
has a serious problem, but not en-
ough PARENTS were there. Dr.
Cleveland asked that we be concern-
ed, now, before it is too late!

False pride or a busy social life
or even days and weeks of hard phy-
sical labor, will not help a boy or
girl who has a problem with drugs.
These drugs may ruin his or her
life! If you suspect or know that
drugs are being used in your family,
ADMIT IT! Then call on our drug
council for help. These people want
to help.

Believe this—it doesn't hurt as
much as you may think, to admit
and face this problem head on and
ask for help. If you have the prob-
lem, the change in your son or
daughter will compensate for any
shame, etc., that may have bothered
you. I make this plea to mothers
especially. Who am I to write like
this and beg the parents of Bethel
to sit up, take notice and back up
our Drug Council? I've been through
it all —

30 SECONDS WITH THE NAZARENE

The television industry . . . is giving the
American public a view of violence, sadism
and sex right in our living rooms . . . Motion
pictures are being televised that only art
theaters would show a few months ago. This
departure of the television industry from the
accepted code and customs of the past poses
a serious moral problem for the Christian.
Yet thousands of Christian parents are caught
up in a dilemma, finding themselves and
their children feeding upon the violence and
sex thrust right into their homes. It takes
discipline to get up and turn off the TV in the
midst of a fascinating program. Many Chris-
tian parents have given up the struggle.

GREENWOOD CITY

Mrs. Collette Margot, Corres.

"Drifts" still lie cold and crunchy in the woodlands and the ice has not yet left the ponds. But they have come! Ducks of various descriptions. They flew in low as we watched them in the early morning, their wings cupped and gleaming heads forward. We listened to their chatter, swapping gossip as they settled down for breakfast and a visit. They minded the weather not at all as the pond leaped in little spurts to meet the rain. Their energy was spent weaving in and out among the floating ice, threading their way up or down stream, taking advantage of every open space.

The clear song of the early morning, so exuberant and energetic comes from our native vocalist, the song sparrow. They nest on the ground or in low bushes so they have a precarious existence. Several years they have chosen to nest in the low hedge next to my house. I watch and guard them but even though we have no cat, something has always destroyed them during a night before they are large enough to fly.

As I glanced from my window on Wednesday, atop the ash tree there sat the kingfisher, his hair certainly needed a comb. This time I didn't see him make a sudden dash into the icy water. He usually smacks in with a great splash. He should have dashed his brains out a dozen times but never did.

Four gulls flew in gliding down invisible hills of air, screaming and squabbling over something they had found.

So with the rushing of freed water, clouds dropping to hide the mountains, rain and sun, April brings us another round of seasons.

"Gray pearly dawn, slither of light;

The coming day tipped with gold

light;

New promises with morning sun,

Hushed silence ere the day's

begin.

Soft misty shadows, morning dew,

Deep haze of fog, while day is

new—

This is the beauty of the country."

We're always thinking...

SELF MEDICATION IS A POTENTIAL DANGER

Even physicians are far from agreement about the practice of self-medication. If everyone went to their doctors at every sign of illness it would be impossible for the medical profession to handle the deluge of patients that would descend upon them. The more seriously ill would suffer most for there would not be enough of the time need for them.

But, self-medication must be carried out wisely. One good rule is... If certain symptoms keep returning, it is time to have your doctor find the cause. When we notice a customer is often buying a particular non-prescription remedy we will always suggest that they should see their doctor.
